Main results

- The **annual change** of the **CPI** in **April** reached **-0,6%**, one tenth over than that registered the previous month.
- The **annual change** of **core** inflation increased one tenth, up to **0.3%**.
- The **monthly change** of the overall index is **0.9%**.

Annual evolution of consumer prices

The annual rate for the overall Consumer Price Index (CPI) in April is **-0.6%**, one tenth over than that registered the previous month.

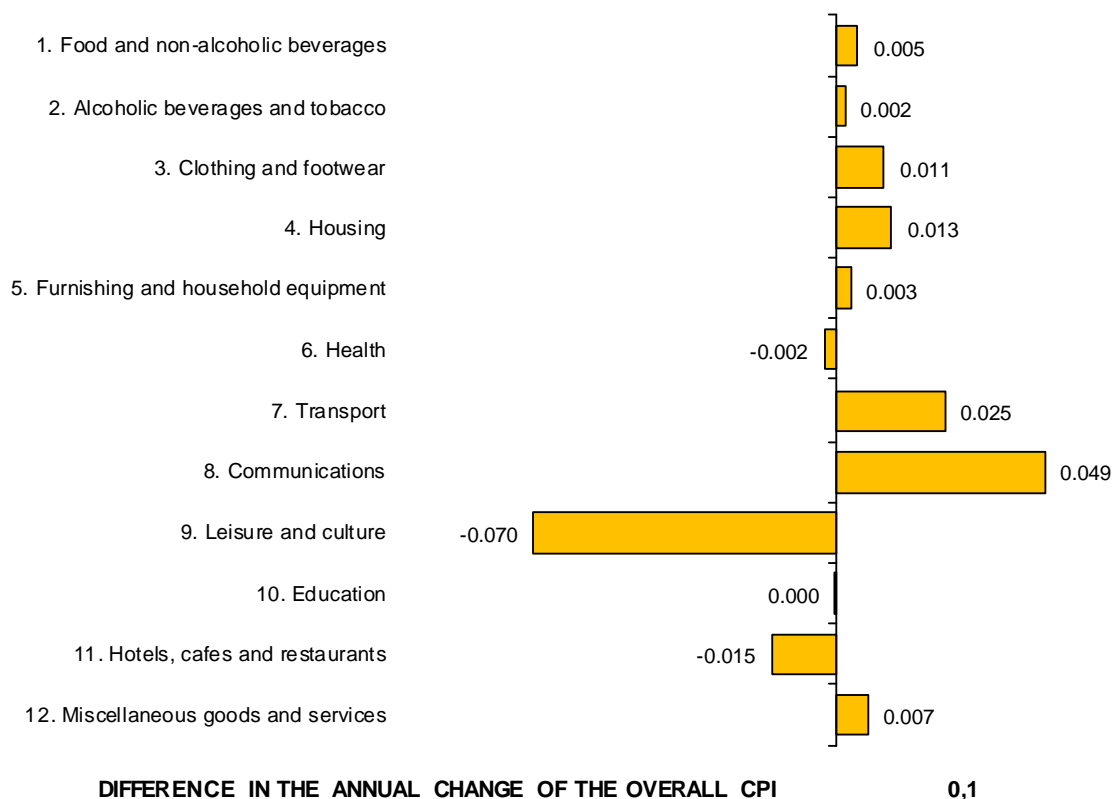

By groups, those that stand out for their greater increases in annual rates are the following:

- **Communications**, showing a **-3.5%** annual rate, more than one point higher than that registered in March. This behaviour was mainly due to the stability of prices in *Telephone services* as compared to the decrease in April 2014.
- **Transport**, showing a **-3.4%**, one tenth higher than that registered the previous month, mainly due to the increase in the prices of *Fuels and Lubricants*, higher than that registered the previous year.
- **Housing**, whose annual change increased by one tenth, standing at **-1.9%**. It is worth noting the *Gas* prices drop, mostly compensated by the rise in *Electricity* prices.

Despite the increase in the annual rate of the overall CPI, worth noting is the decrease of the following groups:

- **Recreation and culture**, reduced its annual rate by nine tenths up to **-1.3%**. This behaviour was mainly due to the increase in *Organised trip* prices, lower this month than in 2014.
- **Hotels, cafes and restaurants**, with a **0.6** annual rate, one tenth below than that registered in March due to the increase *Hotels and other accommodation* prices, lower this year than the previous year.

- **Transport**, with a monthly change of **0.6%** and a contribution of **0.092** to the overall index. This behaviour was mainly due to the increase in prices in *Fuels and lubricants*.
- **Hotels, cafes and restaurants**, with a **0.7%** change. This behaviour was mainly due to the increase in *Hotels and other accommodation* prices usual in Easter. Its contribution to the overall index is **0.077**.
- **Recreation and culture**, with a monthly change **0.5%** and a contribution of **0.036** to the overall CPI. This behaviour was mainly due to the increase in prices of *Organised trip* and *Recreational and sporting services*.

In turn, it is worth noting among the groups that showed a negative monthly effect on the overall index:

- **Food and non-alcoholic beverages**, with a monthly change of **-0.1%** and a contribution of **-0.014** caused by the price decreases of *fresh fruits* and *fresh fish*.

Worth noting is also the increase in *Oils* prices.
