Annual changes

The annual change for the overall Consumer Price Index (CPI) in June was -1.0%, one tenth below that registered in the month of May.

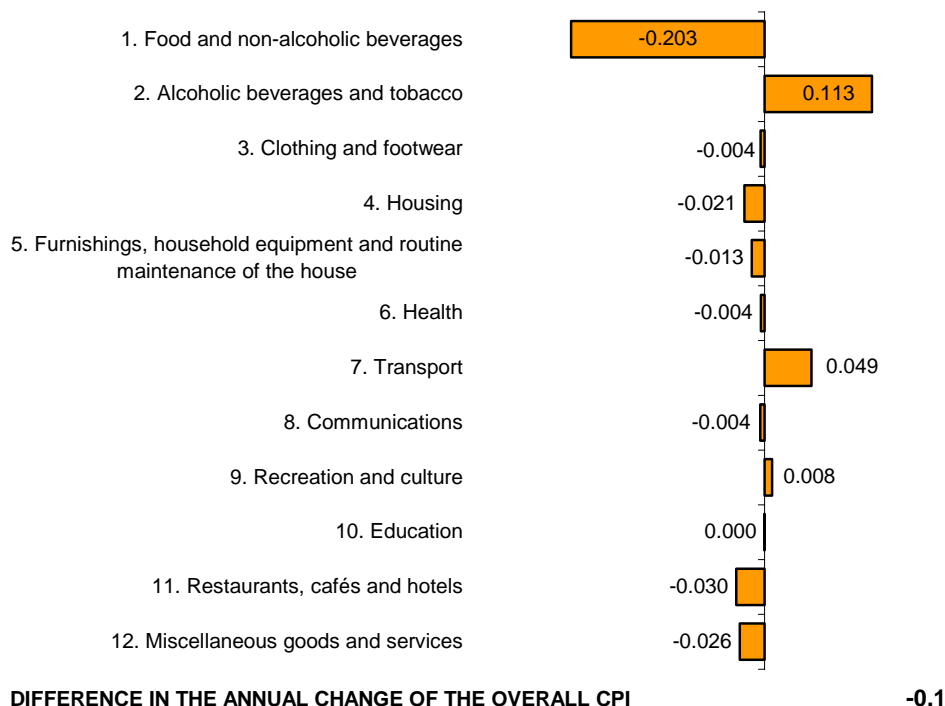

The groups which most contributed to this decrease were:

- **Food and non-alcoholic beverages**, which registered an annual change of **-1.8%**, one point lower than in May. The most noteworthy divisions, due to their contribution to this decrease were *fresh fish* and *fresh potatoes and potatoes preparations*.
- **Restaurants, cafés and hotels**, with an annual change of **1.8%**, three tenths below that for the previous month. This change was explained, for the most part, by prices of *restaurants, cafés and the like* not having experienced any change, in contrast with the increases recorded last year.

In addition to the aforementioned decreases, the increase in annual changes of the following groups was worth noting:

- **Alcoholic beverages and tobacco**, with an annual change of **8.3%**, more than four points higher than last month, due to the increase in prices of *tobacco*.
- **Transport**, with an annual change of **-8.8%**, three tenths higher than the change recorded in May, due to the increase in prices of *fuels and lubricants for personal transport equipment*. Nevertheless, of note in this group was the decrease in prices of *motor cars*.

The following graph shows how each of the groups contributed to the decrease of the overall CPI annual change for June:

The annual change of **core inflation** (overall index without unprocessed food or energy products) decreased one tenth to stand at **0.8%**, and therefore its difference from the overall index change stood at almost two points.

In June, the monthly change of the overall CPI was **0.4%**.

Amongst the groups with the most relevant positive contribution to the overall index were the following:

Transport, with a change of **2.2%** had a contribution of **0.347**, largely due to the increase in price of *fuels and lubricants for personal transport equipment*. Within this group, however, the decrease in prices of *motor cars* was also of note.

Recreation and culture, with a change of **0.5%**, which contributed **0.040**, due to the change in the price of *package holidays*.

Likewise, the groups with the greatest negative monthly contribution during the month of June were the following:

Food and non-alcoholic beverages, whose change of **-0.4%** was due to the decrease in price of several divisions, among which, of note were *fresh potatoes and potatoes preparations* and *fresh fruit*. They had a contribution of **-0.072**.

Clothing and footwear, with a change of **-0.8%**, which contributed **-0.069** to the overall CPI. This change was due to the performance of prices prior to the beginning of the sales period.
