

14 August 2018

**Consumer Price Index (CPI). Base 2016**  
July 2018

**General index**

	Monthly variation	Accumulated variation	Annual variation
July	-0.7	0.4	2.2

**Main results**

- The **annual variation rate** of the CPI in July was **2.2%**, one tenth of a percent lower than that registered the previous month.
- The **annual rate of core** inflation decreases one tenth, reaching **0.9%**.
- The **monthly** variation of the general index was **-0.7%**.
- The **annual rate** of the **Harmonised Index of Consumer Prices** (HICP) stands at **2.3%**, remaining the same as in June.

**Annual evolution of consumer prices**

The annual rate of the general Consumer Price Index (CPI) in July was **2.2%**, one tenth of a point lower than that registered in the previous month.

The groups with the greatest negative influence on the annual rate decrease were:

- **Food and non-alcoholic beverages**, whose rate decreased by seven tenths, standing at **1.8%**. Worth noting in this evolution was the decrease in the prices of *fish and seafood* and *oils and fats*, compared to the increases last year, and the decrease in the prices of *fresh fruits*, higher than in 2017.
- **Leisure and culture**, whose rate dropped by more than one point to **-0.6%**, mainly as a result of the fact that the prices of *tourist packages* increased less this month than in July 2017.
- **Transport**, with an annual variation rate of **5.9%**, two tenths of a point below that of the previous month. This behaviour was due to the fall in the prices of *passenger air transport*, which increased the previous year, and to the fact that the prices of *fuels and lubricants* dropped more this month than in the same month in 2017.

On the other hand, the groups with the most positive influence were:

- **Housing**, whose rate increased by more than one point to **3.7%**, due to the rise in the prices of *electricity*, *gas* and, to a lesser extent, *heating oil*, compared to the falls registered last year.
- **Hotels, cafés and restaurants**, with a variation rate of **2.0%**, three tenths more than in June, mostly due to the fact that the prices of *accommodation services* increased more this month than they did in July 2017.

**Influencia de los grupos en la tasa anual del IPC**

The annual variation rate of **core inflation** (general index excluding unprocessed food and energy products) decreased by one tenth of a point to **0.9%**, remaining more than one point below that of the general CPI.

## Monthly evolution of consumer prices

In July, the monthly change of the general CPI was **-0.7%**.

Among the groups with a negative contribution to the general index, worth noting were:

- **Clothing and footwear**, whose variation rate of **-12.6%** reflects the usual behaviour of prices in the summer sales season. The contribution of this group to the general index was **-0.805**.
- **Food and non-alcoholic beverages**, which presented a variation rate of **-0.7%** and a contribution of **-0.136**. Worth noting in this evolution was the decrease in the prices of *fresh fruits*.
- **Household goods**, with a monthly rate of **-0.8%** and a contribution of **-0.049**, as a consequence of the decrease in the prices of *Household textiles* and, to a lesser extent, of *furniture and accessories*.
- **Transport**, with a variation rate of **-0.2%** explained almost entirely by the drop in the prices of *fuels and lubricants*. The contribution of this group to the general CPI was **-0.030**.

On the other hand, the groups with a positive contribution to the overall index were:

- **Leisure and culture**, which registered a variation rate of **1.6%** and a contribution of **0.134** mainly due to the increase in the prices of *tourist packages*.
- **Housing**, with a variation rate of **0.9%** due to the increase in the prices of *electricity* and *gas*. The contribution of this group to the general CPI was **0.119**.
- **Hotels, cafés and restaurants**, with a monthly rate of **0.6%** and a contribution of **0.073** due to the increase in the prices of *accommodation services* and, to a lesser extent of *catering*.

A more detailed analysis shows the divisions that most affected the monthly rate of the CPI during the month of July.

### **Divisions with the greatest positive contribution to the monthly rate of the CPI**

	Monthly rate (%)	Contribution
<b>Food products</b>		
Meat	0.2	0.010
<b>Other divisions</b>		
Tourist packages	9.2	0.153
Electricity	1.8	0.063
Accommodation services	4.6	0.052
Gas	3.0	0.044
Catering	0.2	0.021

### **Divisions with the greatest negative contribution to the monthly rate of the CPI**

	Monthly rate (%)	Contribution
<b>Food products</b>		
Fresh fruits	-5.1	-0.109
Fresh vegetables	-1.1	-0.021
Oils and Fats	-2.9	-0.016
<b>Other divisions</b>		
Clothes	-13.7	-0.629
Footwear	-10.2	-0.164
Fuels and lubricants for personal vehicles	-0.5	-0.033
Household textiles	-5.5	-0.028
Furniture and accessories	-1.2	-0.015
Other clothing and haberdashery articles	-9.7	-0.012

### Results by Autonomous Community. Annual variation rates

The annual rate of the CPI increased in five Autonomous Communities in July with respect to June, remained unchanged in seven and decreased in the other five. The largest increases occurred in Principado de Asturias and La Rioja, with increases of two tenths in both.

On the other hand, Illes Balears and Canarias were the Autonomous Communities where the annual rate decreased the most, with decreases of two tenths.

#### Tasas anuales del IPC Comunidades y ciudades autónomas

## Harmonised Index of Consumer Prices (HICP)

In July, the annual change of the HICP stood at **2.3%**, the same as that recorded the previous month.

The monthly variation of the HICP was **-1.2%**.

<sup>1</sup> The latest data from the Monetary Union refers to the flash estimate

## Consumer Price Index at Constant Taxes

In July, the annual variation rate of the Consumer Price Index at Constant Taxes (CPI-CT) stood at **2.3%**, one tenth higher than that recorded by the general CPI.

The monthly variation rate of the CPI-CT was **-0.7%**.

In turn, the HICP at Constant Taxes (HICP-CT) registered an annual variation rate of **2.3%**, the same as that of the HICP.

The monthly variation rate of the HICP-CT was **-1.2%**.
