

13 August 2019

**Consumer Price Index (CPI). Base 2016**  
**Harmonised Index of Consumer Prices (HICP). Base 2015**  
July 2019

**Main results**

- The annual variation rate of the CPI for July is 0.5%, one tenth higher than that registered the previous month.
- The annual rate of core inflation remains at 0.9%.
- The monthly variation rate of the overall index is -0.6%.
- The annual rate of the Harmonised Index of Consumer Prices (HICP) stands at 0.6%, remaining the same as in June.

**Annual evolution of consumer prices**

The annual rate of the overall Consumer Price Index (CPI) in July was 0.5%, one tenth higher than that registered in the previous month.

The groups with the greatest influence on this annual rate increase were:

- **Food and non-alcoholic beverages**, registering a change of 0.9%, four tenths more than in the previous month, as a result of the evolution of the price of *fruits*, which decreased this month less than they did in July 2018.
- **Transport**, whose annual rate increased five-tenths to 0.5% due to the prices of *fuels and lubricants* increasing this month, while they decreased last year.

On the other hand, the groups with a negative influence included:

- **Housing**, with a variation of -1.7%, two tenths below that of June. This behaviour was mainly caused by the stability of *gas* prices registered this month, compared with the increase in these the previous year.

It should also be noted, although in the opposite sense, that *electricity* prices went up more this month than in July 2018.

- **Hotels, cafés and restaurants**, whose rate dropped two tenths and stands at 2.0%, mainly as a result of the fact that *accommodation services* prices went up less this month than in 2018.

**Influence of the groups on the annual CPI rate**

**Annual rate difference overall CPI**

**0.1**

The annual variation rate of the underlying inflation (overall index without unprocessed foods or energy products) remains at 0.9%, which is four tenths above the overall CPI.

## Annual rate of CPI

Overall and core index. Percentage

## Monthly evolution of consumer prices

The monthly variation of the overall IPRI was -0.6% in July.

## Monthly rate of CPI

Overall index Percentage

The groups with the greatest negative contribution to the monthly CPI rate were:

- **Clothing and footwear**, with a rate of -12.6%, which reflects the usual behaviour of prices in the summer sale season. This group's contribution to the overall CPI was -0.819.
- **Food and non-alcoholic beverages**, which had a rate of -0.3% and a contribution of -0.050, mainly as a result of the decrease in the prices of *fruit*.

In contrast, it is also worth noting the increase in the prices of *meat*.

- **Furniture**, whose monthly variation of -0.8% is due to a decrease in the prices of *household textiles* and *furniture and accessories*. The contribution of this group to the overall CPI was -0.049.

On the other hand, the groups with the greatest positive contribution to the overall index were:

- **Recreation and culture**, with a rate of 1.6% and a contribution of 0.138, explained almost entirely by the increase in the prices of *package holidays*.
- **Housing**, with a variation of 0.7% and an impact of 0.084, as a result of the increase in the prices of *electricity*.
- **Hotels, cafés and restaurants**, whose monthly change of 0.4% contributed 0.051. The increase in the prices of *accommodation services* is worth mentioning here.
- **Transport**, which registers a variation of 0.3% due to the increase in the prices of *fuels* and, to a lesser extent, *cars*. This group's contribution to the overall index is 0.046.

A more detailed analysis shows the divisions that most affected the monthly rate of the CPI during the month of July.

## Main upward contributions to the CPI monthly rate

Classes	Monthly rate (%)	Contribution
<b>Food</b>		
Fruit	-2.9	-0.057
<b>Other</b>		
Garments	-13.7	-0.654
Shoes and other footwear	-9.9	-0.153
Household textiles	-4.9	-0.025
Furniture and furnishings	-1.5	-0.019

## Main downward contributions to the CPI monthly rate

Classes	Monthly rate (%)	Contribution
<b>Food</b>		
Meat	0.5	0,023
<b>Other</b>		
Package holidays	8.6	0,141
Electricity	2.6	0,082
Accommodation services	2.9	0,036
Fuels and lubricants for personal transport equipment	0.4	0,028
Motor cars	0.5	0,017

**Results by Autonomous Community Annual variation rates**

The annual CPI rate increased in 11 Autonomous Communities in July compared to June, and remains the same in the other six.

The largest increases occur in Illes Balears, Canarias, Castilla-La Mancha, Galicia, Región de Murcia and Castilla y León, with increases of two-tenths.

**Annual rates of CPI**

Autonomous Communities and Cities. Percentage

## Harmonised Index of Consumer Prices (HICP)

In July, the annual change in the HICP stood at 0.6%, the same as that recorded the previous month.

The monthly change of the HICP was – 1.1%.

### Annual evolution of HICP. Base 2015

Overall index Spain and Monetary Union<sup>1</sup>

<sup>1</sup> The latest data from the Monetary Union refers to the flash estimate

## Consumer Price Index at Constant Taxes

In July, the annual variation rate of the Consumer Price Index at Constant Taxes (CPI-CT) stood at 0.4%, one tenth below that recorded by the overall CPI.

The monthly change in the CPI-CT was –0.6%.

In turn, the HICP-CT registered an annual rate of 0.6%, the same as that of the HICP.

The monthly variation rate of the HICP-CT was –1.1%.

## Data review and update

The data published today are final and are not subject to further revision. All results are available on INEBase.

## Methodological note

The **Consumer Price Index (CPI)** is a short-term indicator that measures the evolution of the prices of consumer goods and services acquired by households resident in Spain.

On the other hand, the Harmonized Index of Consumer Prices (HICP) is an indicator whose objective is to provide a common inflation measure that allows international comparisons.

**Type of survey:** monthly continuous survey.

**Base period:** 2016 (CPI) and 2015 (HICP).

**Reference period of the weightings:** the year preceding the current year.

**Sample of municipalities:** 177.

**Number of products:** 479 (CPI) and 478 (HICP).

**Number of observations:** approximately 220,000 monthly prices.

**Functional classification:** ECOICOP.

**General calculation method:** Chained Laspeyres.

**Collection method:** interviewers in establishments and centralised collection for special products.

For more information, the methodology of both indicators can be consulted in the following link:

[http://www.ine.es/en/metodologia/t25/t2530138\\_16\\_en.pdf](http://www.ine.es/en/metodologia/t25/t2530138_16_en.pdf)
