November	-0.3	0.3	-3.0
December	3.4	-2.4	-1.1

Passengers transport annual evolution, by type of transport

Monthly rate evolution¹

The variation rate for the number of passengers on public transport in December 2014, as compared with November, was -5.5%.

Evolution of the monthly rate (month-on-month variation for December as compared with November

¹ In order to contribute to the analysis and interpretation of data, the evolution of the monthly rate of public transport passengers in the last years has been included in this rubric. This type of series' monthly rates might have certain seasonal behavior, therefore it is advisable to value them regarding the data of the same month of previous years.

Press Reliand • Instituto Nacional de Estadística

City transport

City transport was used by more than 232.8 million passengers in December, 3.4% more than in the same month of 2013.

Metropolitan transport registered an increase of 3.4% and bus transport increased by 3.4%. Metropolitan transport increased in all cities except for Palma, which registered a -0.2% rate.

Bus transport registered positive annual rates in all the cities using metropolitan transport.
