

Industrial Price Index (IPRI). Base 2010

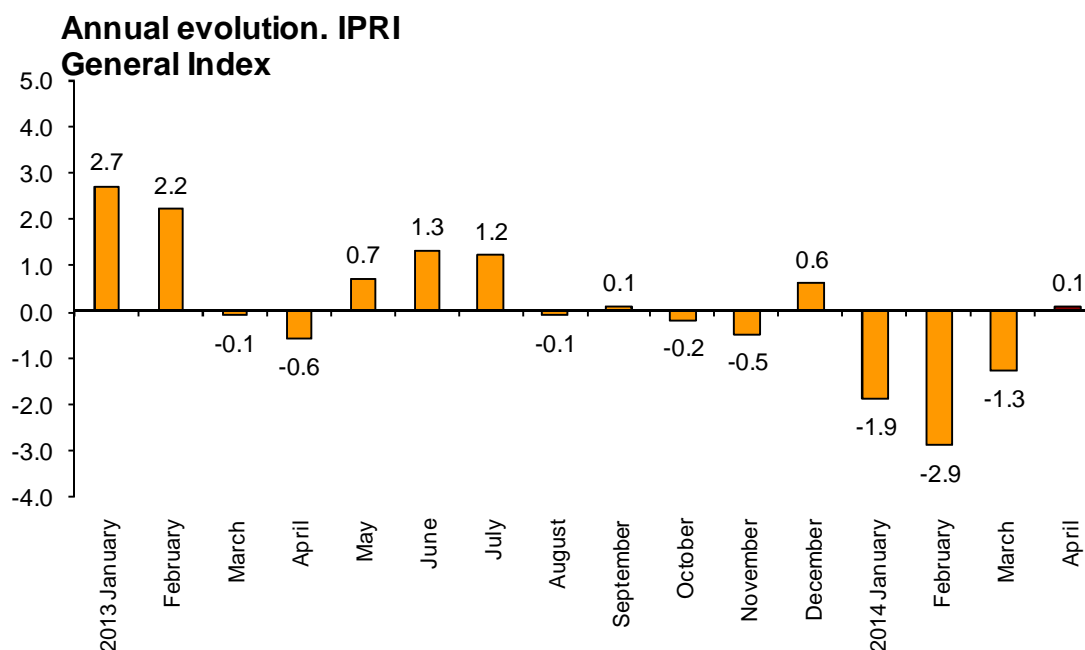

April 2014. *Provisional data*

The annual variation rate of the Industrial Price Index stands at 0.1%, almost one point and a half over that registered in March

The monthly variation rate of industrial prices is 0.2%

Annual evolution of industrial prices

The annual rate of the General Industrial Price Index (IPRI) stood at **-0.1%** in April, almost one point and a half over that registered in March.

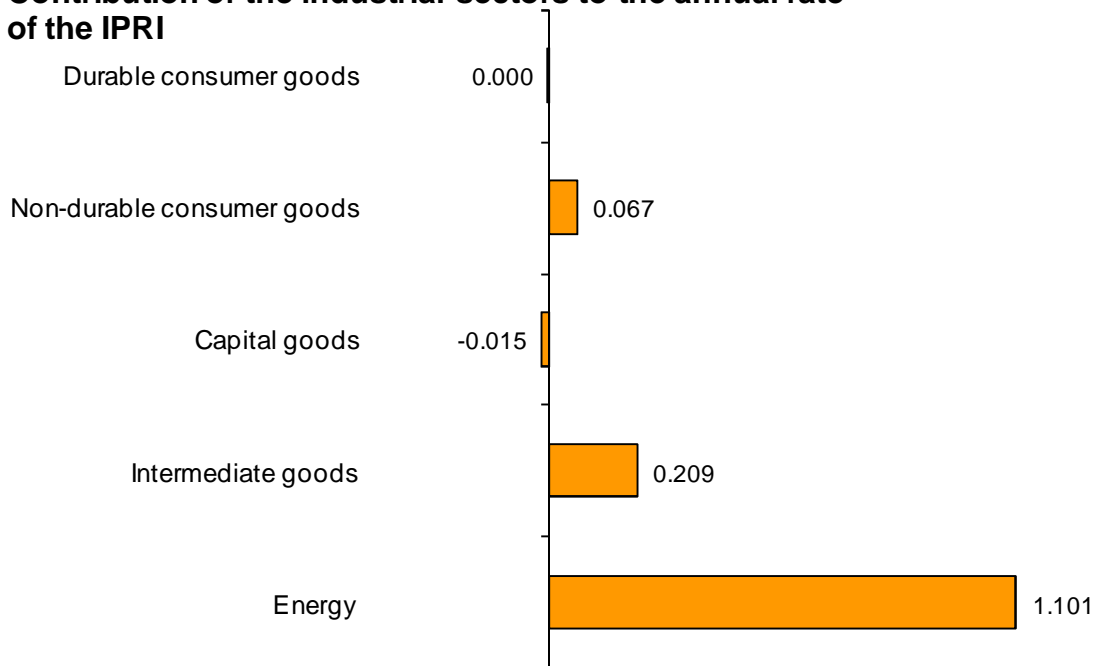

By economic destination of the goods, the industrial sectors that influenced the most the increase in the annual variation of the general IPRI were:

- **Energy**, whose rate stood at **3.4%**, more than four points over that of the previous month. This behaviour was due to the stability in the prices of the *Production, transportation and distribution of electrical energy*, as well as *Manufacture of refined petroleum products* as compared with the decreases registered in April 2013.

• **Intermediate goods**, which increased seven tenths its annual variation, up to **-2.2%**. It is worth noting in this behaviour the increase in the prices of *Manufacture of basic precious and other non-ferrous metals* and *Manufacture of basic chemicals, fertilisers and nitrogen compounds, plastics and synthetic rubber in primary forms*, which registered a decrease in the same month of the previous year.

Contribution of the industrial sectors to the annual rate of the IPRI

VARIATION IN THE ANNUAL RATE. GENERAL IPRI 1,4

Monthly evolution of industrial prices

In April, the monthly variation of the general IPRI was **0.2%**.

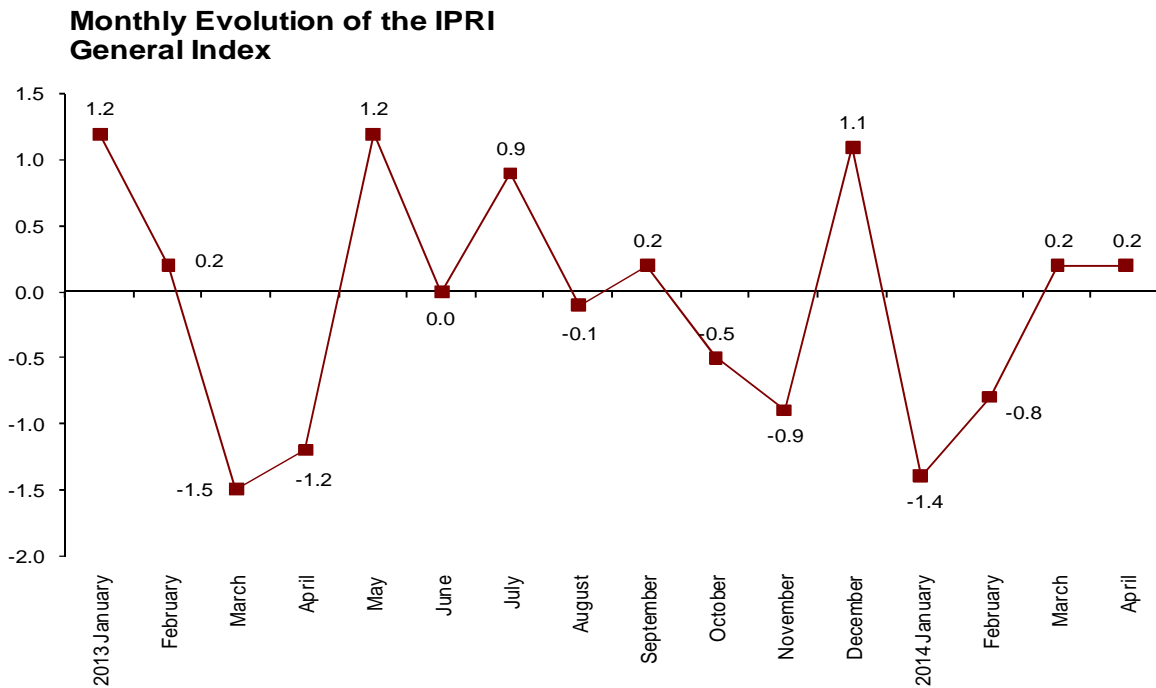

By economic destination of the goods, the industrial sectors that recorded a monthly positive effect on the general index were:

- **Energy**, with a monthly variation of **0.2%** and an effect of **0.059**. This behaviour was mainly due to the increase in the prices of *Manufacture of refined petroleum products* and *Manufacture of gas; distribution of gaseous fuels through mains*.

Despite the increase in the monthly variation of this sector, worth noting the decrease in the prices of *Production, transportation and distribution of electrical energy*.

- **Intermediate goods**, with a variation of **0.2%**. Worth noting in this variation the increase in the prices of *Forging, pressing, stamping and roll-forming of metal; powder metallurgy, Manufacture of plastics products* and *Manufacture of prepared animal feeds*. Its effect in the general IPRI was 0.052.

• **Non-durable consumer goods**, with a rate of **0.2%** and an effect of **0.047**, mainly due to the increase in the prices of *Processing and preserving of meat and production of meat products*.

A more detailed analysis showed the activities that most affected the monthly rate of the IPRI in the month of April.

Activities with the greatest positive effect on the monthly rate of the IPRI

	Monthly rate (%)	Effect
CNAE-09		
Processing and preserving of meat and production of meat products	1.6	0.073
Manufacture of refined petroleum products	0.6	0.050
Manufacture of gas; distribution of gaseous fuels through mains	1.1	0.041
Forging, pressing, stamping and roll-forming of metal; powder metallurgy	1.6	0.016
Manufacture of plastic products	0.5	0.012
Manufacture of prepared animal feeds	0.5	0.012

Activities with the greatest negative effect on the monthly rate of the IPRI

	Monthly rate (%)	Effect
CNAE-09		
Production, transportation and distribution of electrical energy	-0.3	-0.038
Printing and service activities related to printing	-1.2	-0.021
Manufacture of railway locomotives and rolling stock	-2.7	-0.016

Results by Autonomous Community. Annual variation rates

The annual rate of the IPRI increased in all the Autonomous Communities, except for La Rioja, where it decreased two tenths, reaching 0.5%.

In the rest of the Autonomous Communities, worth noting the increase in the rates of Illes Balears (12.7%) and Canarias (9.6%), with increases of more than seven points, as well as Principado de Asturias (5.2%) which increased its rate in five points.
