Industrial Price Index (IPRI). Base 2010 August 2014. Provisional data

The annual variation rate of the Industrial Price Index stands at –0.6%, one tenth lower than that registered in July

The monthly variation rate of industrial prices is -0.1%

Annual evolution of industrial prices

The annual rate of the General Industrial Price Index (IPRI) stood at -0.6% in August, one tenth lower than that registered in July.

By economic destination of the goods, the industrial sectors that influenced the most the decrease in the annual variation of the general IPRI were:

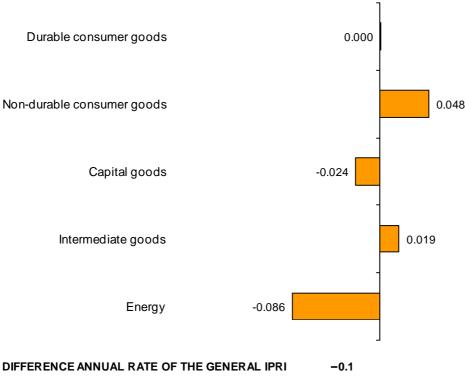

• **Energy**, whose annual rate decreased by three tenths, reaching **-1.0%**, due to the decrease in the prices of *Manufacture of refined petroleum products* this month, as compared to the increase registered in August 2013. Moreover, the prices of *Manufacture of gas; distribution of gaseous fuels through mains* registered a lower increase this month, as compared to the same month of the last year.

Within this sector, worth noting was the increase of more than two points in the annual rate of *Electric power generation, transmission and distribution*, due to a lower decrease in the prices of this industry, as compared to that registered in August 2013.

• **Capital goods,** with a variation of **0.2%**, one tenth below that registered in the previous month. Worth noting in this behaviour was the decrease in the prices of *Repair of fabricated metal products, machinery and equipment* and the stability in the prices of *Manufacture of structural metal products*.

In turn, among the industrial sectors that registered an increase in their annual rate, worth noting:

• **Non-durable consumer goods,** whose variation increased two tenths, standing at **-0.4%**. This was due to the increase in the prices of *Manufacture of vegetable and animal oils and fats*, as compared to the decrease registered in the same month of 2013.

Contribution of the industrial sectors in the annual rate of the IPRI

Release

Press

Monthly evolution of industrial prices

In August, the monthly variation of the general IPRI was -0.1%.

By economic destination of the goods, among the industrial sectors with a monthly negative effect on the general index, worth noting:

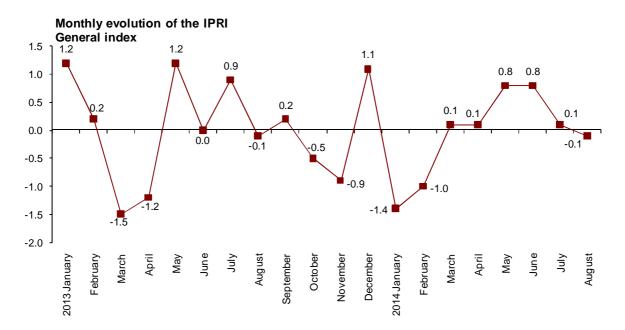

• **Energy**, whose monthly variation of **-0.6%** was due to the decrease in the prices of *Electric* power generation, transmission and distribution and of Manufacture of refined petroleum products. Its effect to the general index was **-0.151**.

It was also worth noting the increase in the prices of *Manufacture of gas; distribution of gaseous fuels through mains*.

• *Intermediate goods*, with a rate of -0.2% and an effect of -0.056, due to the decrease in the prices of *Manufacture of prepared animal feeds*.

In turn, the only industrial sector with a positive contribution to IPRI was:

• **Non-durable consumer goods**, with a monthly variation of **0.2%** and an effect of **0.058**. Worth noting was the increase in the prices of *Manufacture of vegetable and animal oils and fats*.

A more detailed analysis showed the activities that most affected the monthly rate of the IPRI in the month of August.

Activities with the greatest contribution to the IPRI monthly rate

¥	Monthly rate (%)	Contribution		
CNAE-09 Group				
Manufacture of gas; distribution of gaseous fuels through mains	3.1	0.124		
Manufacture of vegetable and animal oils and fats	4.7	0.086		
Manufacture of railway locomotives and rolling stock	0.9	0.005		

Activities with the greatest negative contribution to the IPRI monthly rate

	Monthly rate (%)	Contribution		
CNAE-09 Group				
Electric power generation, transmission and distribution	-1,2	-0,150		
Manufacture of refined petroleum products	-1,5	-0,126		
Manufacture of prepared animal feeds Processing and preserving of meat and production of meat	-1,4	-0,032		
products	-0,3	-0,015		

Results by Autonomous Community. Annual variation rates

Release

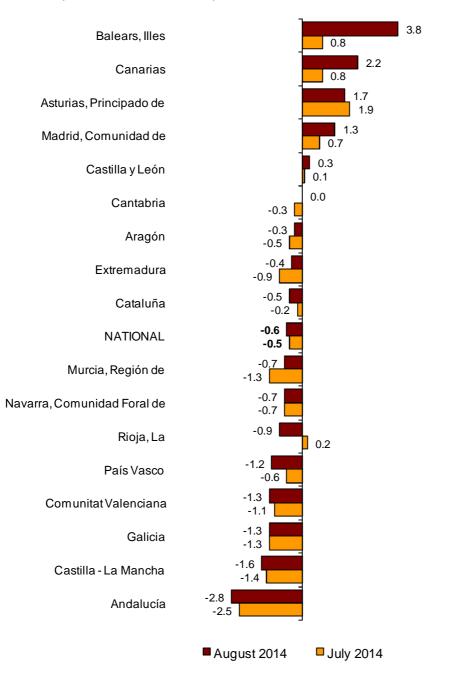

In August, the annual rate of the IPRI increased in eight Autonomous Communities. Among them, worth noting were Illes Balears (3.8%) and Canarias (2.2%), which registered increases of 3.0 and 1.4 points, respectively.

In turn, among the Autonomous Communities that registered a decrease, worth noting were La Rioja (-0.9%) and País Vasco (-1.2%), whose decreases were of more than one point and six tenths, respectively.
