

25 November 2015

Industrial Price Index (IPRI). Base 2010
October 2015. *Provisional data*

**The annual rate of the Industrial Price Index stands at –3.5%,
one tenth higher than that recorded in September**

The monthly variation rate of industrial prices is –0.7%

Annual evolution of industrial prices

The annual rate of the General Industrial Price Index (IPRI) stood at **–3.5%** in October, one tenth higher than that recorded in September.

By economic destination of the goods, the industrial sector that influenced the most this increase was:

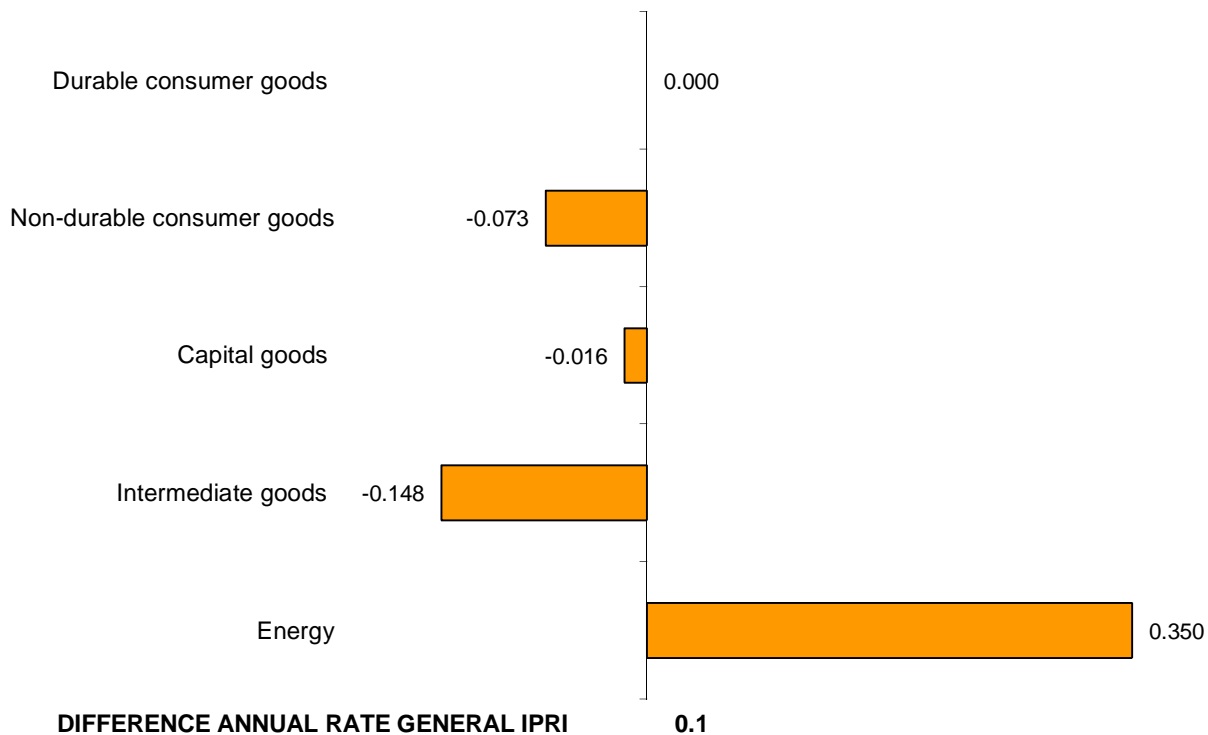

- **Energy**, whose annual rate increased more than 1 point up to **–13.2%**. This behaviour was due to the decrease in the prices of *Manufacture of refined petroleum products* and of *Electric power generation, transmission and distribution*, lower than that registered in October 2014.

Although the annual rate of the general IPRI increased, it is worth noting the decrease of:

- **Intermediate goods**, whose annual variation decreased four tenths as compared to September, standing at **–1.4%**, due to the decrease in the prices of *Manufacture of basic iron and steel and of ferro-alloys* and of *Manufacture of basic chemicals, fertilisers and nitrogen compounds, plastics and synthetic rubber in primary forms*, as compared with the stability registered in the previous year.

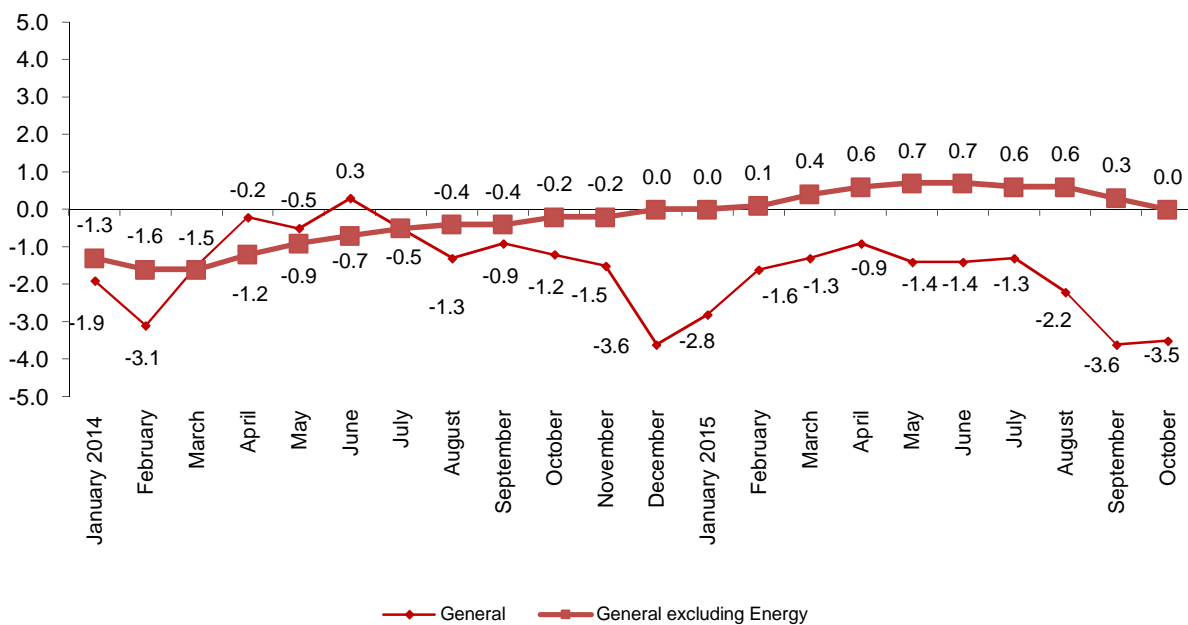

- **Non-durable consumer goods**, whose annual variation decreased two tenths standing at **1.2%**, due to the decrease in the prices of *Manufacture of vegetable and animal oils and fats*, higher than that registered in 2014, and of *Printing and service activities related to printing*, which increased in October 2014.

Contribution of the industrial sectors in the annual rate of the IPRI

The annual variation rate of the **general index excluding Energy** decreased three tenths up to **0.0%**, three points and a half over that of the general IPRI.

Annual evolution of the IPRI
General index and general index excluding Energy

Monthly evolution of industrial prices

In October, the monthly variation of the general IPRI was **-0.7%**.

By economic destination of the goods, the industrial sectors that had negative monthly contribution to the general index were:

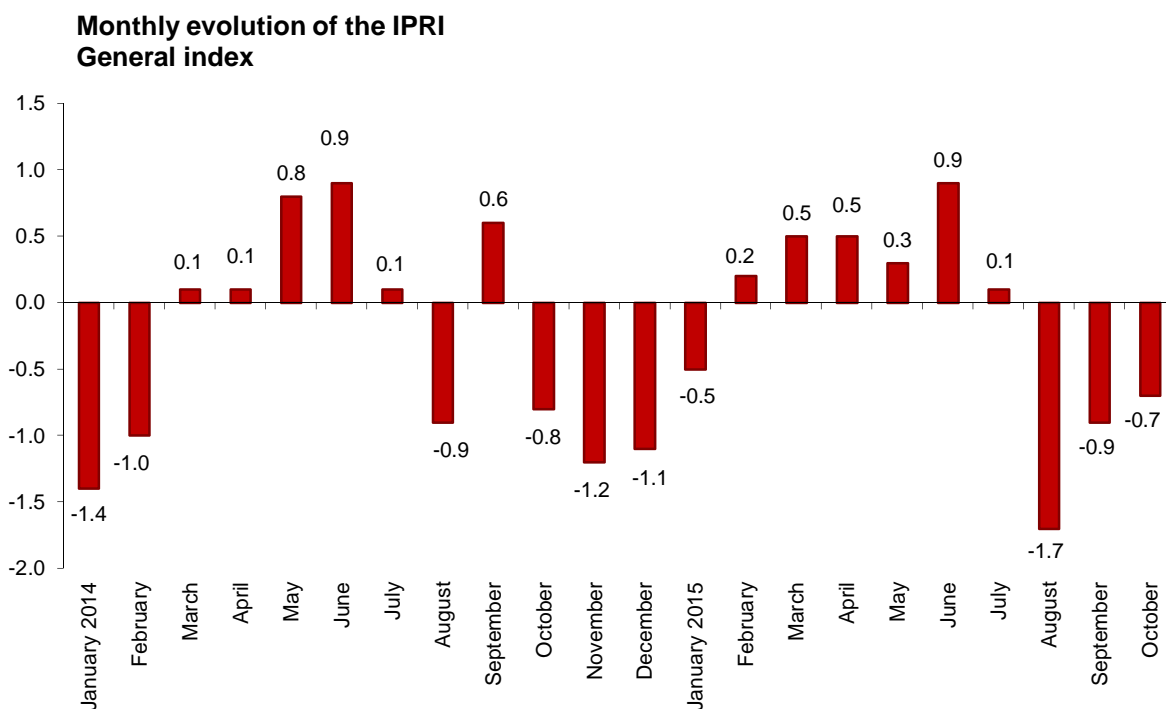

- **Energy**, with a rate of **-1.4%** mainly due to the decrease in prices of *Manufacture of refined petroleum products, Manufacture of gas; distribution of gaseous fuels through mains* and, in a lower level, *Electric power generation, transmission and distribution*. Its contribution in the general IPRI was **-0.366**.

- **Intermediate goods**, with a monthly variation of **-0.6%** and an effect of **-0.171**. This was mainly due to the decrease in prices of *Manufacture of basic iron and steel and of ferro-alloys* and *Manufacture of basic chemicals, fertilisers and nitrogen compounds, plastics and synthetic rubber in primary forms*.

- **Non-durable consumer goods**, whose rate of **-0.5%** had a contribution of **-0.132**. This was mainly due to the decrease in prices of *Manufacture of vegetable and animal oils and fats* and *Processing and preserving of meat and production of meat products*.

The only sector with a positive contribution to the general index was:

- **Durable consumer goods**, whose rate stood at **0.1%**, due to the increase of prices in *Manufacture of jewellery, bijouterie and related articles* and *Manufacture of furniture*. This industry had a contribution to the general index of 0.002.

A more detailed analysis showed the activities that most affected the monthly rate of the IPRI in the month of October.

Activities with the greatest positive contribution to the monthly rate of the IPRI

	Monthly rate (%)	Contribution
CNAE-09 Group		
Manufacture of other food products	0.5	0.011
Manufacture of other electrical equipment	3.8	0.007

Activities with the greatest negative contribution to the monthly rate of the IPRI

	Monthly rate (%)	Contribution
CNAE-09 Group		
Manufacture of refined petroleum products	-2.7	-0.189
Manufacture of gas; distribution of gaseous fuels through mains	-3.1	-0.105
Manufacture of vegetable and animal oils and fats	-3.7	-0.078
Electric power generation, transmission and distribution	-0.5	-0.071
Manufacture of basic iron and steel and of ferro-alloys	-3.7	-0.060
Manufacture of basic chemicals, fertilisers and nitrogen compounds, plastics and synthetic rubber in primary forms	-1.9	-0.057
Processing and preserving of meat and production of meat products	-0.9	-0.038
Manufacture of prepared animal feeds	-0.9	-0.020
Manufacture of railway locomotives and rolling stock	-2.6	-0.019
Manufacture of basic precious and other non-ferrous metals	-1.2	-0.015
Printing and service activities related to printing	-0.8	-0.014
Manufacture of plastics products	-0.5	-0.014
Forging, pressing, stamping and roll-forming of metal; powder metallurgy	-1.0	-0.010

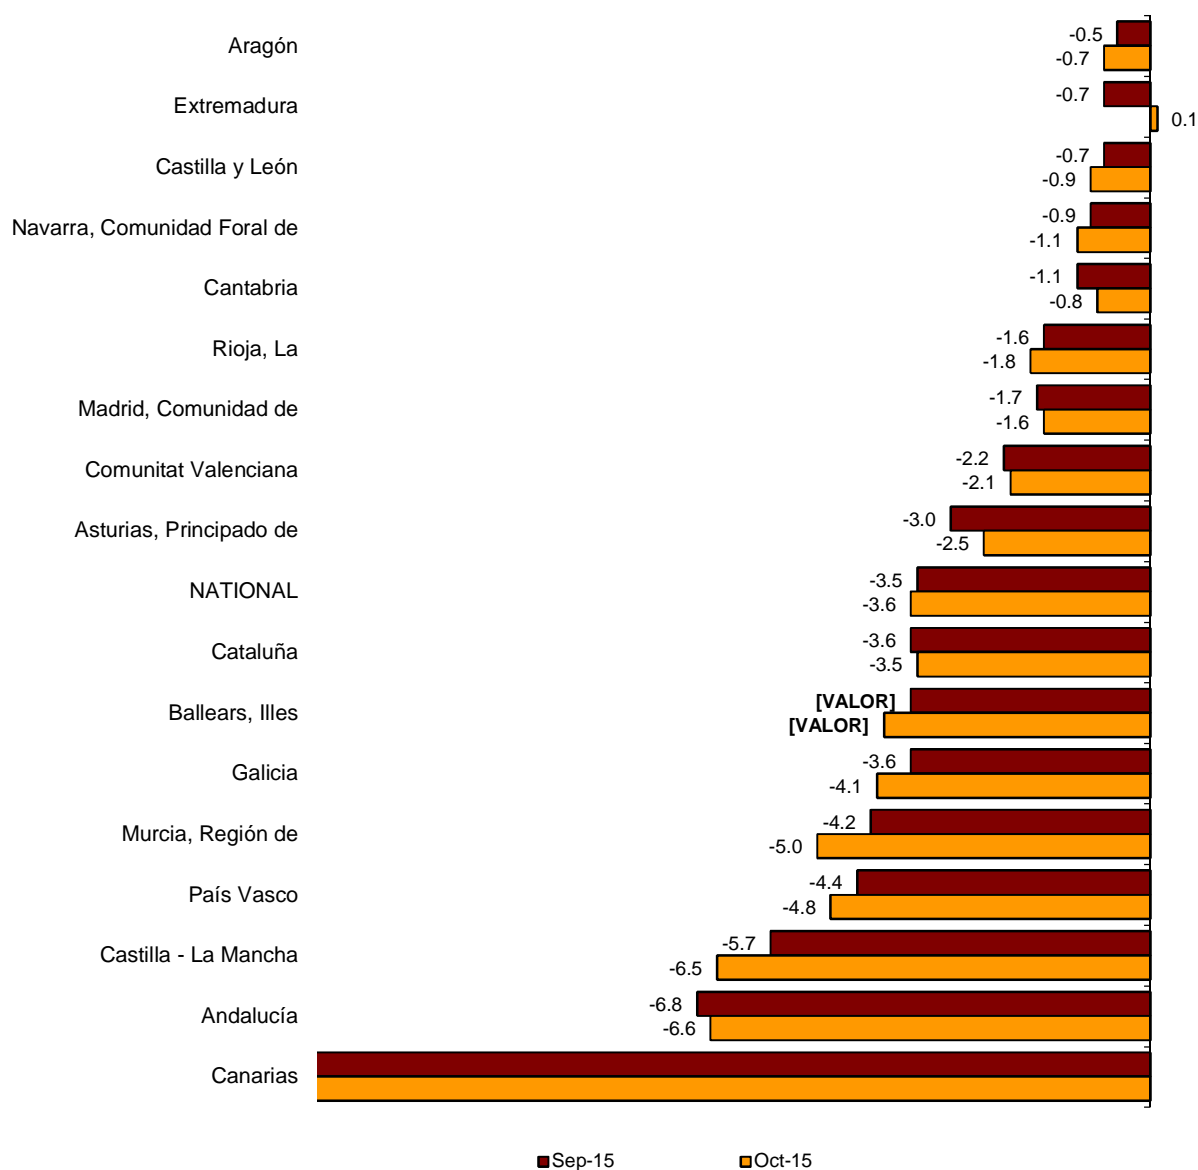

26 October 2015

Results by Autonomous Community. Annual variation rates

The annual rate of the IPRI increased in 10 Autonomous Communities. The greatest increases were recorded in Canarias (-13.6%), Castilla-La Mancha (-5.7%), and Región de Murcia (-4.2%), which annual rates increased 1.2, 0.8, and 0.8 points respectively.

In turn, among the Autonomous Communities which recorded a decrease in their annual rates, worth noting were: Extremadura (-0.7%) and Principado de Asturias (-3.0%), with decreases of eight and five tenths, respectively.

Annual variation rates. IPRI
