

Industrial Price Index (IPRI). Base 2010
November 2014. *Provisional data*

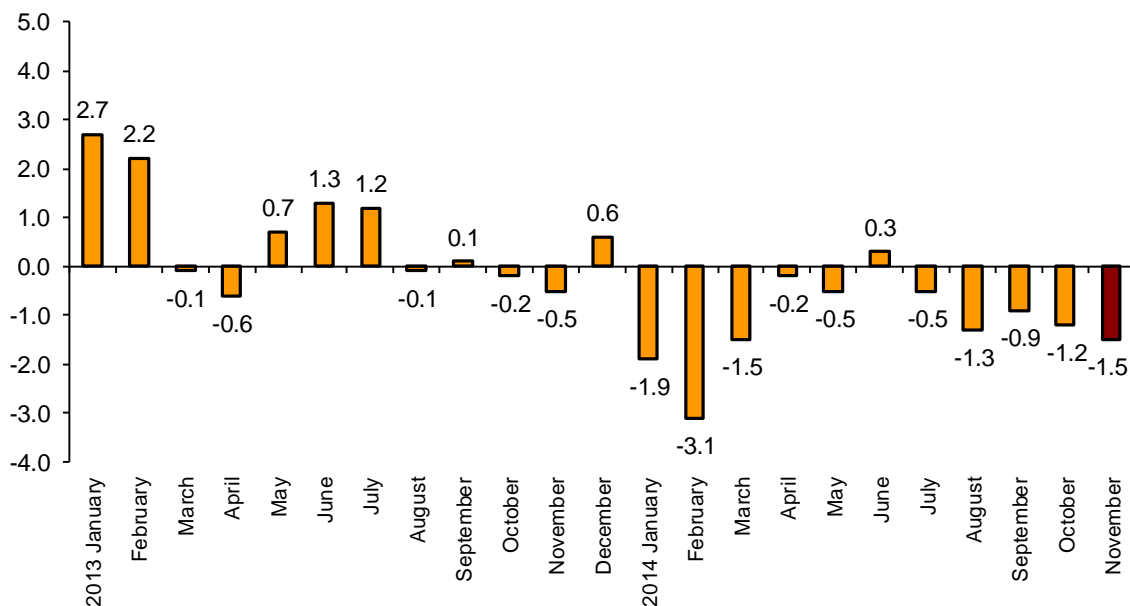

The annual variation rate of the Industrial Price Index stands at -1.5% , three tenths lower than that registered in October

The monthly variation rate of industrial prices is -1.1%

Annual evolution of industrial prices

The annual rate of the General Industrial Price Index (IPRI) stood at -1.5% in November, three tenths lower than that registered in October.

Annual evolution of the IPRI
General index

By economic destination of the goods, the industrial sectors that influenced the most the decrease in the annual variation of the general IPRI were:

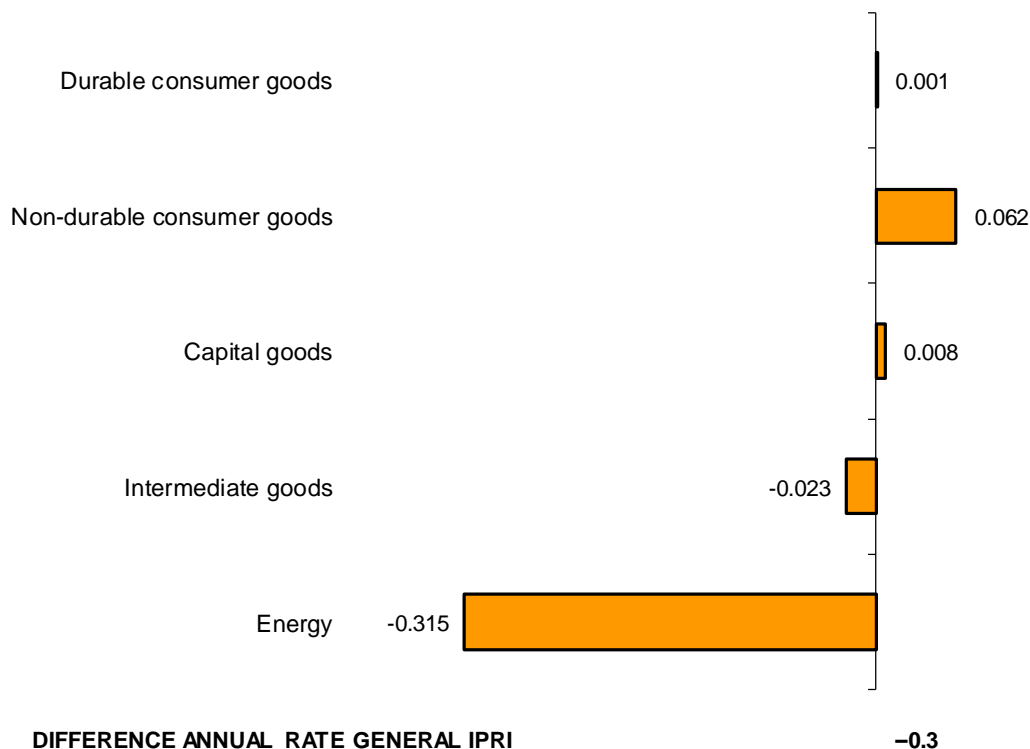

- **Energy**, whose annual rate was -5.4% , almost one point and a half lower than that registered in the previous month. This behaviour was due to the fact that the decrease in the prices of *Manufacture of refined petroleum products* this month was higher than that of November 2013. In fact, this activity registered its lowest annual rate since October 2009.
- **Intermediate goods**, whose variation decreased one tenth, standing at -0.6% . This was due to the fact that the prices of *Manufacture of basic chemicals, fertilisers and nitrogen*

compounds, plastics and synthetic rubber in primary forms and of Manufacture of basic iron and steel and of ferro-alloys decreased more this month than in November 2013.

In turn, among the industrial sectors that registered an increase in the annual rate, worth noting:

- **Non-durable consumer goods**, whose variation increased two tenths, standing at **-0.2%**. This was due to increase in the prices of *Manufacture of vegetable and animal oils and fats*, as compared to the decrease registered in the same month of 2013.

Contribution of the industrial sectors in the annual rate of the IPRI

Monthly evolution of industrial prices

In November, the monthly variation of the general IPRI was **-0.5%**.

By economic destination of the goods, among the industrial sectors with a monthly negative effect on the general index, worth noting:

- **Energy**, whose monthly variation of **-4.0%** was due to the decrease in the prices of *Electric power generation, transmission and distribution* and *Manufacture of refined petroleum products*. Its effect to the general index was **-1.044**.

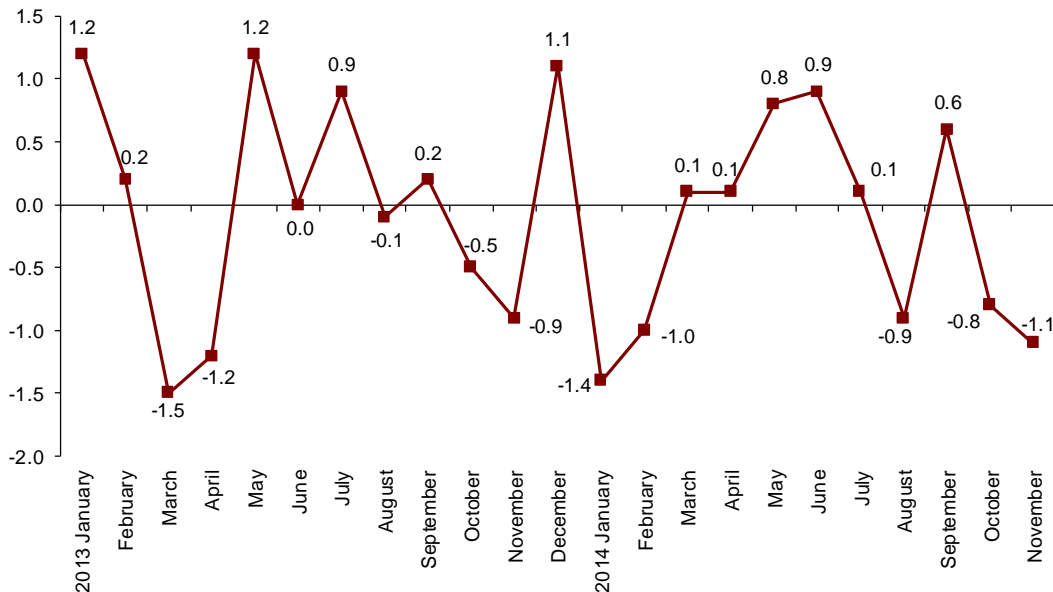

- **Intermediate goods**, whose rate of **-0.2%** and effect of **-0.069** was mainly due to the decrease in the prices of *Manufacture of basic chemicals, fertilisers and nitrogen compounds, plastics and synthetic rubber in primary forms* and *Manufacture of basic iron and steel and of ferro-alloys*.

- **Capital goods**, whose rate of **-0.1%** had a contribution of **-0.011**. Worth noting was the decrease in the prices of *Repair of fabricated metal products, machinery and equipment* and *Manufacture of railway locomotives and rolling stock*.

The only sector with a positive effect on the annual rate was:

• **Non-durable consumer goods**, whose rate of **0.0%** had a contribution of **0.007**. This was due to the increase in the prices of *Manufacture of vegetable and animal oils and fats*. Likewise, worth noting was the decrease in the prices of *Processing and preserving of meat and production of meat products*.

**Monthly evolution of the IPRI
General index**

A more detailed analysis showed the activities that most affected the monthly rate of the IPRI in the month of November.

Activities with the greatest positive contribution to the IPRI monthly rate

	Monthly rate (%)	Contribution
CNAE-09 Group		
Manufacture of vegetable and animal oils and fats	3.8	0.073

Activities with the greatest negative contribution to the IPRI monthly rate

	Monthly rate (%)	Contribution
CNAE-09 Group		
Electric power generation, transmission and distribution	-4.5	-0.554
Manufacture of refined petroleum products	-5.1	-0.397
Manufacture of gas; distribution of gaseous fuels through mains	-2.3	-0.093
Processing and preserving of meat and production of meat products	-1.1	-0.050
Manufacture of basic chemicals, fertilisers and nitrogen compounds, plastics and synthetic rubber in primary forms	-1.4	-0.044
Manufacture of basic iron and steel and of ferro-alloys	-1.5	-0.025

Results by Autonomous Community. Annual variation rates

The annual rate of the IPRI decreased in 10 Autonomous Communities. Among them, worth noting were Canarias (−0.1%) and País Vasco (−2.1%), which registered decreases of 1.3 and 0.8 points, respectively.

In turn, among the Autonomous Communities that registered increases, worth noting were Illes Balears (5.0%), with an increase of 1.6 points, and La Rioja (−0.7%) and Principado de Asturias (2.6%), both with increases of five tenths.

Annual variation rates. IPRI
