Methodological note

The Statistics on Transfer of Property Rights provides information on the number of rights over real estate transferred during the reference month, on a national level, by provinces and Autonomous Communities.

The information on transfers of property rights is obtained from the information available in the Land Registers throughout Spain, by virtue of a [collaboration agreement](#) signed in 2004 between the two institutions.

Type of survey: continuous monthly survey.

Population scope: entries of transfers of property rights in the land registers.

Geographical scope: the entire national territory, by Autonomous Communities and provinces.

Reference period of the results: the calendar month.

Reference period of the information: the calendar month.

Classification: sale, donation, inheritance, exchange and other property titles, of rustic and urban properties (dwellings, plots and other urban properties).

Collection method: administrative registers from Association of property and Mercantile registers of Spain.
