Revision and updating of data

The data for 2024 are provisional and will be reviewed when the data for the same period next year are published. All results of this operation are available on [INEbase](#).

Methodological note

The Statistics on Transfer of Property Rights provides information on the number of rights over real estate transferred during the reference month, on a national level, by provinces and Autonomous Communities.

The information on transfers of property rights is obtained from the information available in the Land Registers throughout Spain, by virtue of a [collaboration agreement](#) signed in 2004 between the two institutions.

Type of survey: continuous monthly survey.

Population scope: entries of transfers of property rights in the land registers.

Geographical scope: the entire national territory, by Autonomous Communities and provinces.

Reference period of the results: the calendar month.

Reference period of the information: the calendar month.

Classification: sale, donation, inheritance, exchange and other property titles, of rustic and urban properties (dwellings, plots and other urban properties).

Collection method: administrative registers from Association of property and Mercantile registers of Spain.
