Data revisions and updates

The data for 2026 are provisional and will be reviewed when the data for the same period in 2027 are published. All the results of this operation are available at INEbase.

In accordance with the Commission's Delegated Regulation (EU) 2023/137 the INE has begun to work on incorporating the new National Classification of Economic Activities CNAE-2025 in all its statistical operations.

In the case of Mercantile Companies, the first publication of results with CNAE-2025 will take place in March 2028.

Methodological note

The Mercantile Companies Statistics were created by Order of 30 April 1938. Their objective is to measure the demographics of companies, providing monthly information, at provincial and Autonomous Community level, on the companies incorporated, dissolved and those in which there have been changes in capital.

The source of information is the Central Mercantile Registry, which collects all provincial information on the registration of companies and entrepreneurs, as well as mercantile acts determined by law.

Type of survey: continuous monthly survey.

Population scope: set of companies registered in the Central Mercantile Register.

Geographical scope: the entire national territory, by Autonomous Communities and provinces.

Reference period of the results: the calendar month.

Reference period of the information: the calendar month.

Collection method: official records.

More information on the methodology and the standardised methodological report.

INE statistics are produced in accordance with the Code of Good Practice for European Statistics. More information on Quality at the INE and the Code of Best Practice.
