Methodological note

The Mercantile Companies Statistics were created by Order of 30 April 1938. Their objective is to measure the demographics of companies, providing monthly information, at provincial and Autonomous Community level, on the companies incorporated, dissolved and those in which there have been changes in capital.

The source of information is the Central Mercantile Registry, which collects all provincial information on the registration of companies and entrepreneurs, as well as mercantile acts determined by law.

Type of survey: continuous monthly survey.

Population scope: set of companies registered in the Central Mercantile Register.

Geographical scope: the entire national territory, by Autonomous Communities and provinces.

Reference period of the results: the calendar month.

Reference period of the information: the calendar month.

Collection method: official records.
