

13 June 2007

**Consumer Price Index (CPI). Base 2006**

**May 2007**

**Overall index**

	Monthly change	Change over last December	Annual change
May 2007	0.3	1.8	2.3

**Main results**

- The **annual change** rate of the **CPI** in **May** decreases 0.1, reaching **2.3%**.
- The **annual change** of **core** inflation is **2.5%**, the same as in April.
- The **monthly change** of the overall index is **0.3%**.
- The **Harmonised Index of Consumer Price (HICP) annual change** stands at **2.4%**, one tenth less than in the previous month.

## Annual change rates

The annual change for the overall Consumer Price Index (CPI) in May was **2.3%**, 0.1 less than that registered in April.

By groups, those that stood out due to their greater annual change rate were the following:

- **Recreation and culture**, whose annual change increased from **-0.4%** in April to **-0.2%** in May. This evolution can be explained by the fact that *package holidays* price drops were less pronounced this year than in May 2006.
- **Housing**, whose annual change stood at **3.0%**, 0.2 below the rate for April. This decline is explained by the fact that most of its components had increased in a less pronounced manner than in the previous year.
- **Transport**, whose annual change decreased by 0.2, standing at **0.5%**. This behaviour was mainly a consequence of the evolution of *motor car* prices, which dropped during the month, as compared with last year's increase; and to *fuels and lubricants*, whose prices increased in a less pronounced manner than in May 2006.

A more detailed analysis shows that the division that had the greatest contribution to the increase of annual changes in the *Recreation and Culture* group during May was:

	Annual change (%) Apr-07	Annual change (%) May-07	Difference
<b>Division</b>			
Package holidays	0.3	3.0	2.7

Likewise, the divisions that had the greatest contribution to the evolution of the annual change for the *housing* and *transport* groups were the following:

	Annual change (%) Apr-07	Annual change (%) May-07	Difference
<b>Division</b>			
Water Supply	7.0	5.5	-1.5
Gas	-3.0	-3.5	-0.5
Motor cars	2.0	1.7	-0.3
Fuel and lubricants	-2.8	-3.0	-0.2

The annual change rate of **core inflation** (overall index excluding energy and unprocessed food) remains at **2.5%**, thus yielding a 0.2 difference in comparison with the overall index.

## Annual Evolution of the CPI, base 2006

Overall and Core

## Monthly change rates

The monthly change rate of the CPI in May was **0.3%**.

Amongst the groups with the most relevant positive contribution to the overall index we find the following:

- **Transport**, whose **1.0%** monthly change had a **0.146** contribution to the overall index. This behaviour was mainly due to price increases in *fuels and lubricants*.
- **Clothing and footwear**, with a monthly change of **1.3%**, covering the performance of prices of the Spring-Summer season. Its contribution to the general CPI for May was **0.114**.

The groups that showed the highest negative monthly change rates over the month of May were the following:

- **Recreation and culture**, whose **-0.8%** monthly change was mainly a result of *package holidays* price drops, a regular trend after Easter. It had a **-0.054** contribution.
- **Communications**, with a **-0.3%** monthly change, which takes into account price drops in *telephone equipment*. Its contribution to the general CPI rate for May was **-0.012**.

## Monthly evolution of the CPI, base 2006 Overall index

### Details of monthly changes

A more detailed analysis shows the divisions that had the greatest contribution to the monthly change of the CPI during May.

The divisions with the greatest positive contribution to the monthly change were:

	Monthly change (%)	Contribution
<b>Food</b>		
Poultry meat	2.6	0.023
Fresh fruit	0.7	0.010
<b>Other divisions</b>		
Fuels and lubricants	2.5	0.146
Garments	1.2	0.077
Footwear	1.9	0.037
Restaurants, cafes and the like and canteens	0.3	0.029

Likewise, the divisions with the greatest negative contribution were the following:

	Monthly change (%)	Contribution
<b>Food</b>		
Fish and seafood	-0.7	-0.021
<b>Other divisions</b>		
Package holidays	-3.2	-0.042
Accommodation services	-4.1	-0.031

### Autonomous Communities. Annual change rates

Annual changes in general CPI in the Autonomous Communities appear in the following graph:

### Harmonised Index of Consumer Price (HICP)

In the month of May, the HICP showed an annual change rate of **2.4%**, one tenth less than in April. This change coincides with that of the HICP flash estimated, published on 30 May.

The monthly change of the HICP was **0.3%**.
