

Press Releases

25 October 2019

Industrial Price Index. Base 2015 September 2019. Provisional data

The annual variation of the Industrial Price Index falls seven tenths to -3.3%

The monthly rate of industrial prices is 0.1%

Annual evolution of industrial prices

The annual rate for the overall Industrial Price Index (IPRI) in September was -3.3%, seven tenths below that registered in August.

By economic destination of goods, the most notable industrial sectors with a negative effect on the evolution of the IPRIX annual rate were:

• **Energy,** whose variation decreased by two points, standing at -10.0%, due to the decrease in the prices of *Electric power generation, transmission and distribution*, as compared with the increase registered in September last year.

It is also worth noting, although in the opposite direction, the increase in the prices of *Manufacture of refined petroleum products*, which was higher this month than in 2018.

• Intermediate goods, with a rate of -1.0%, two tenths below that of August, mainly due to the decreases in the prices of *Manufacture of basic iron and steel and of ferro-alloys*, *Manufacture of basic chemicals, fertilisers and nitrogen compounds, plastics and synthetic rubber in primary forms* and *Manufacture of prepared animal feeds*, which increased in September 2018.

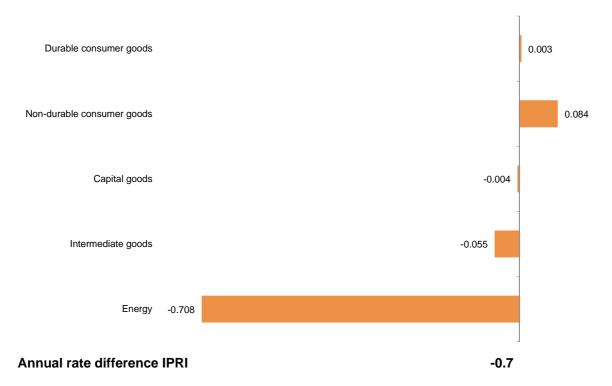

It is also worth noting, although in the opposite direction, the increase in the prices of *Manufacture of basic precious and other non-ferrous metals*, compared to the fall they experienced last year.

On the other hand, the sector with the greatest positive impact was:

• **Non-durable consumer goods,** which increased its variation three tenths to 0.7%, due to the increase in the prices of *Processing and preserving meat and meat processing*, which fell last year.

The fact that the prices of *Manufacture of oils and vegetable and animal fats* decreased less this month than in September 2018 also influenced this, to a lesser degree.

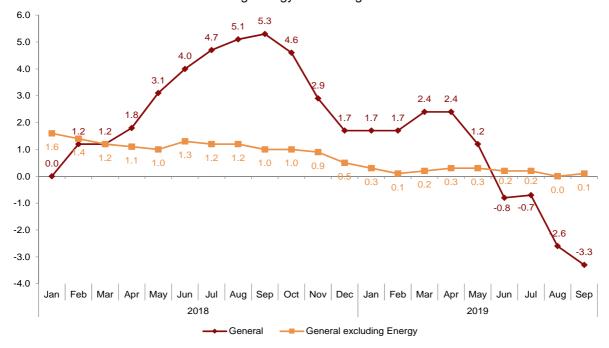

Contribution of industrial sectors to the annual rate of the IPRI

The annual variation rate of the overall index excluding Energy increased one tenth to 0.1%, standing almost three and a half points above that of the overall IPRI.

Annual evolution of the IPRI

Overall index and overall index excluding Energy. Percentage

Monthly evolution of industrial prices

In September, the monthly variation rate of the general IPRI was 0.1%.

By economic destination of goods, the industrial sectors that presented the greatest positive monthly effect on the overall index were:

• **Energy**, with a rate of 0.3% and a contribution of 0.107, caused by the increase in the prices of *Manufacture of refined petroleum products*.

It is also worth noting, although in the opposite direction, the decrease in the prices of *Electric power generation, transmission and distribution.*

• **Non-durable consumer goods**, with a variation of 0.1%, mainly due to the increase in the prices of *Processing and preserving meat and production of meat products*. The contribution of this sector to the overall IPRI was 0.020.

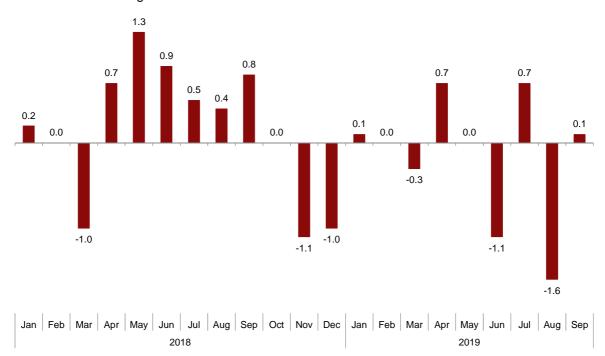

The only industrial sector with a negative monthly contribution to the overall index was:

• **Intermediate goods**, whose monthly variation stood at -0.1%, contributing -0.034, mainly due to the price decreases in the *Manufacture of basic iron*, steel and ferro-alloy products

It is also worth noting, although for its positive influence, the increase in the prices of *Manufacture of basic precious and other non-ferrous metals*.

Monthly evolution of the IPRI

Overall index Percentage

A more detailed analysis shows the activities that most affected the monthly rate of the IPRI in the month of September.

Activities with the greatest positive contribution to the monthly rate of the IPRI

Activity (CNAE-09 groups)	Monthly rate (%)	Contribution
Manufacture of refined petroleum products	7.9	0,667
Processing and preserving of meat and production of meat products	1.0	0,051
Manufacture of basic precious and other non-ferrous metals	2.2	0,032
Manufacture of gas; distribution of gaseous fuels through mains	0.5	0,026
Treatment and coating of metals; machining	1.2.	0,015
Forging, pressing, stamping and roll-forming of metal; powder metallurgy	1.1.	0,012

Activities with the greatest negative contribution to the monthly rate of the IPRI

Activity (CNAE-09 groups)	Monthly rate (%)	Contribution		
Electric power generation, transmission and distribution	-3.8	-0,587		
Manufacture of basic iron and steel and of ferro-alloys	-2.2	-0,039		
Printing and service activities related to printing	-0.9.	-0,012		

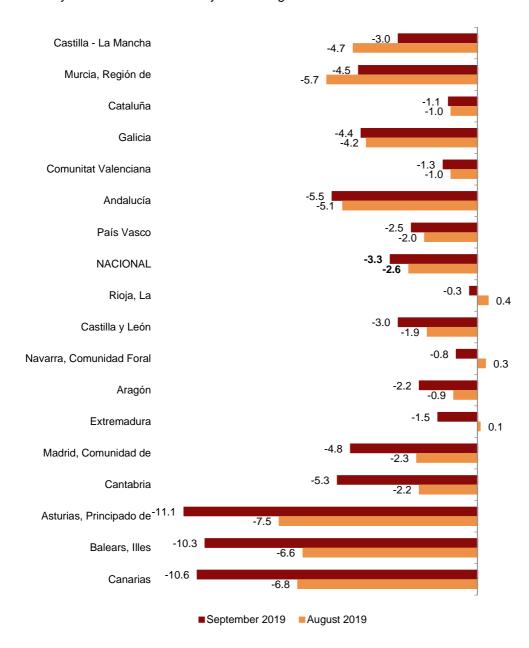

Results by Autonomous Community. Annual variation rates

The annual rate of the IPRI decreased in all Autonomous Communities except in Castilla-La Mancha and Región de Murcia, where it increased 1.7 and 1.2 points respectively.

Meanwhile, the greatest decreases were recorded in Canarias, Illes Balears and Principado de Asturias, with decreases of 3.8, 3.7 and 3.6 points respectively.

Annual variation rates of the IPRI

Index by Autonomous Community. Percentage

Data review and update

Coinciding with today's publication, the INE has updated the data of the IPRI series corresponding to the last three months, becoming final the month of June 2019. The results are available at INEBase.

Methodological note

The Industrial Price Index (IPRI) is a short-term indicator that measures the monthly evolution of the prices of industrial products manufactured and sold in the domestic market, in the first step of their commercialisation, that is to say, at ex-factory prices, excluding transport and commercialisation costs and invoiced VAT.

Type of survey: monthly continuous survey.

Base year: 2015.

Reference period of the weightings: the year preceding the current year.

Population scope: industrial establishments.

Sample size: 9,000 industrial establishments and 1,500 items.

Number of observations: approximately 28,000 monthly prices.

General calculation method: Chained Laspeyres.

Collection method: internet (IRIA system), e-mail, fax, telephone or postal mail.

For more information you can access the methodology at:

http://www.ine.es/en/daco/daco42/daco423/metoipri2015 en.pdf
