Nature, characteristics and purpose

The Adult Education Survey is a government statistical research project undertaken in Spain by the Instituto Nacional de Estadística (INE, the national statistical institute); it is performed throughout the entire European Union. The survey is designed to study adult involvement in education and learning.

The importance of the survey has prompted us to ask you for your valuable help.

Legislation

Statistical confidentiality. Any personal data procured by statistical units from respondents directly or from administrative sources are protected by statistical confidentiality (article 13.1 of the Government Statistics Act [*Ley de la Función Estadística Pública*] or "LFEP"). All statistical staff are under a duty to keep statistics in confidence (article 17.1 LFEP).

Duty to provide data. This survey is part of the National Statistical Plan. Therefore, under the *Ley 13/1996*, a statute introducing fiscal, administrative and social measures, this questionnaire is mandatory. Statistical offices may request data from all Spanish and foreign natural and legal persons resident in Spain (article 10.1 LFEP).

All natural and legal persons who supply data, whether their cooperation is mandatory or voluntary, shall reply truthfully, accurately, fully and within deadline to survey questions duly put to them by the statistical services (article 10.2 LFEP).

XI. Household details

XI. A. Household Composition Table

Interviewer: Read out the following to the respondent: "To finish, I shall ask you to provide some basic details about the people you live with in your household. Bear in mind that:
- **Include people who are members of your household even if not living there for the time being.**
- **Exclude people who live with you but are not members of your household.**

Please give me those people's full names, including children.

[APPLICATION OPERATION*:*
1) The application will now show a table of details of people registered as resident at the dwelling. For each person, ask for the full name, the month and year of birth (if unknown, ask respondent simply for the age), and sex, if necessary. The interviewer will cross-refer the details for each person with the registered data shown in the table. Where the details match, the interviewer need only link and review the data, without need of data entry. Any non-matching information must be entered independently.
2) After the respondent has listed his/her household members, the application will display a reminder to the interviewer to ask about absent household members:
"Is anyone currently absent who usually lives here and is a member of your household?"
If the answer is YES, continue by entering the details for that person. Otherwise, go to section XI.B.]
