Nature, characteristics and purpose

The **Living Conditions Survey** is a source of statistical information in European Union countries and is designed with the purpose of obtaining comparative data on income and the living conditions in private households.

The significance of these objectives leads us to ask for your important and valuable collaboration.

Legislation

Statistical Secrecy

The personal data obtained by the statistical services will be protected by **statistical secrecy** (art. 13.1 of the Law on Public Statistical Services, dated the 9th of May 1989, LFEP)). All statistical personnel will be obliged to maintain statistical secrecy (art. 17.1 of the LFEP).

Obligation to provide data

Laws 4/1990 and 13/1996 set out the **obligation to provide the data** that is requested for the compilation of this statistic.

Statistical services may request data from individuals and legal entities, both national and foreign, resident in Spain (art. 10.1 of the LFEP).

All individuals and legal entities that provide data **should respond in a true, exact and comprehensive way within the stipulated deadlines** to the questions asked by statistical services (art. 10.2 of the LFEP).

In order to monitor compliance with these regulation, the LFEP (art. 48) grants the INE sanctioning capacity.
